

NOV Monoflo[®] Company Profile

NOV Monoflo[®]

NOV Monoflo[®] is a leading name in the design, manufacture, and distribution of progressive cavity (PC) pumps, grinders, screens, packaged pump solutions, and universal parts used across the water and wastewater, paper and pulp, chemical and pharmaceutical, food and beverage, mining, and oil and gas industries.

Established in 1935 as one of the four original manufacturers of PC pumps, NOV Monoflo[®] combines experience with innovation, continuing to introduce revolutionary technology to the market, most notably with its patented Flexishaft[™] and EZstrip[™] designs. With revenues in excess of \$120 million, NOV Monoflo[®] operates worldwide with the following 8 international locations supported by 700 authorized distributors of its products around the globe:

- Houston, USA
- Melbourne, Australia
- Shanghai, China
- Auckland, New Zealand
- Buenos Aires, Argentina
- Calgary, Canada
- Rebeuville, France
- Manchester, UK

NOV Monoflo[®]'s Quality and Experience

NOV Monoflo[®] actively engages the market place to provide customer-focused solutions that add value, provide peace of mind, and minimize the impact on our environment. We can test and analyze a sample to identify the correct material selection for a heavy duty industrial pump, supply a grinder to prevent pump or pipework blockages, and utilize the advantages of PC pump technology to avoid damage to a shear sensitive product.

As one company we are able to offer unlimited solutions, including:

- Product development
- System packaging
- Service and aftermarket parts
- Mechanical & electrical design
- Installation and commissioning

NOV Monoflo[®] manufactures all the key components for our PC pumps, allowing us to control the quality and integrity of our products to ISO 9001:2000 standards. We were recently awarded ISO 14001:2004 for our commitment to reducing our negative impact on the environment.

National Oilwell Varco (NOV)

NOV Monoflo[®]'s global success is enhanced by our parent company National Oilwell Varco (NOV), which acquired Monoflo[®] in 2003. As a worldwide leader in the manufacture and sale of equipment and components used in oil and gas drilling and production operations, the provision of oilfield inspection and other services, and supply chain integration services to the upstream oil and gas industry, NOV generates revenues of nearly \$13 billion and market capitalization of over \$20 billion. Often referred to as a "one stop shop" for the oil and gas industry because of its seemingly infinite product portfolio, NOV conducts operations in over 825 locations across six continents.

One Company, Unlimited Solutions
